WH1519

We are here to help all workers in the United States, regardless of immigration status.

The law says you cannot be fired or retaliated against for contacting us or exercising your rights.

WE CAN:

Answer questions, in person or by telephone, about your workplace rights and protections.

Investigate employers and recover wages to which you may be entitled by law.

Help you find assistance with your other workplace problems.

Our services are **free** and **confidential**.

Even if you are paid by the day, you should generally receive at least $7.25 per hour and overtime pay after 40 hours.
